How to leverage the power of humanism

Prevention only happens when patients connect with their healthcare team. It's time we make every healthcare space a human-centered space.

1 Take Care of You

For a healthcare team to really care for a patient, that team must be cared for themselves.

WELL-BEING TOOLS

2 Create Connection

Start relationships by connecting with patients as people first.

TELL ME MORE® TOOL

3 Make it Safe

Care for the whole person, understanding that we all bring what has happened to us into the healthcare space.

LEARN ABOUT TRAUMA-INFORMED CARE

4 Don't Underestimate Kindness

The generosity of caring for someone and asking nothing in return carries the power to bring change.
