

#RELYONHENRYSCHEIN

“ *Patients need the opportunity to talk and be heard and, nowadays, in health care, you’re not really given that – everything is rushed. The reason we’re able to build deep and long-lasting relationships with our patients is due to our dental software. Dentrix acts as our invisible employee, handling our office’s tasks in the background, leaving my team more time to focus on compassionate dentistry.* ”

DR. VASILIKI BAZOS
Bazos Dental – Torrance, CA
