To guarantee special pricing/offers, where applicable, please include the three-digit promo code when ordering. Henry Schein Dental reserves the right to discontinue this promotion at any time [including, without limitation, if supply or demand for the promotional products is affected due to extraordinary events]. Note: Participating in a promotional discount program (e.g., points, discount redemptions or other special awards) is only permissible in accordance with discount program rules. By participation in such program, you agree that, to your knowledge, your practice complies with the program requirements. For HS promotions: This promotion offers a bundled discount. The cost of any “buy/get” (or “no charge”) items is a discount applied to your other purchases on the same invoice. The reportable value (unit price) of the “no charge” item will be identified on the invoice. To calculate the applicable discount on the other items on the same invoice, divide the total value (unit price(s)) of any no-charge item(s) by the total value (extension price(s)) of all other items purchased on the same invoice, and apply the resulting percentage equally to each item to determine net prices. For manufacturer promotions: The prices stated in the invoice or statement may reflect a discount or be subject to a rebate. You must fully and accurately report this stated discount price, or if applicable, any net pricing, after giving effect to any rebates, to Medicare, Medicaid, Tricare and any other federal or state program upon request by any such program. Accordingly, you should retain these records. It is your responsibility to review any agreements or other documents applicable to these prices to determine if they are subject to a rebate.

BEHIND the BRAND

Meet

ANNA MARIA SOLOMON

National Telesales Manager,
Zahn Dental

**Building Connections,
Delivering Expertise.**

Anna Maria Solomon believes that great customer service goes beyond just taking orders, it's about building relationships, understanding customer needs, and providing solutions that truly make a difference. With 16 years of experience at Henry Schein, she has helped countless customers streamline their ordering process and find the right products to support their business.

Known for her proactive and customer-first approach, Anna Maria works closely with customers to ensure they have access to the latest products and services. She actively listens to customers' needs, offers solutions, and ensures that every interaction adds value.

When she's not assisting customers or leading her team, Anna Maria enjoys traveling, cheering for the New York Rangers, and spending time with her husband, fellow TSM Kevin Solomon, and their 8-year-old son, Zack. Whether she's helping a long-time customer or welcoming a new one, her goal remains the same—providing exceptional service that helps dental professionals succeed.

***Let's Meet in Wakefield, MA at our
World Class Technology and Training Center!***

NEW!

Zirlux® 3D Print Resins

Engineered for Precision.

Designed for Efficiency.

The Zirlux® brand has been a global leader in digital materials for years, trusted by dental labs worldwide for their esthetics, performance, and reliability. The Zirlux® 3D Print Resins are the latest products to enter the Zirlux® Digital Portfolio and are designed to integrate seamlessly into your existing workflow.

Whether you're printing models, surgical guides, nightguards, or gingival masks, Zirlux® resins deliver the quality and reliability your workflow depends on.

Key Features:

Premium Esthetics: Lifelike translucency and smooth finishes for premium results

High Accuracy: Precise prints for models, surgical guides, nightguards, splints and gingival masks

IntraOral Scanner More than an IOS

Contact your
Zahn Representative
for more information.

IPG

**Intraoral
Photogrammetry**

SHINING 3D has introduced a groundbreaking innovation, **Intraoral Photogrammetry Technology (IPG)**, revolutionizing precision and efficiency in dental implantology.

This unique technology from SHINING 3D integrates photogrammetric scanning directly into intraoral procedures, enhancing the precision and efficiency of full-mouth edentulous implants, particularly in **All-on-X** procedures.

IPG simplifies workflow and promises to elevate treatment outcomes by seamlessly combining intraoral scanning with advanced photogrammetry techniques, setting a new standard in dental care.

ZAHN™
A Division of ZH HENRY SCHEIN

Two-in-One System

The Aoralscan Elite is the world's first device to integrate both intraoral scanning and photogrammetry into a single unit. The device functions as a standard intraoral scanner (IOS) for capturing images of dentulous cases, allowing for detailed scans of teeth and oral structures.

Additionally, it serves as a photogrammetry system, which is used to accurately record the position of dental implants in edentulous cases. This dual functionality makes it versatile for both traditional dental work and advanced implant procedures.

IPG for All-on-X

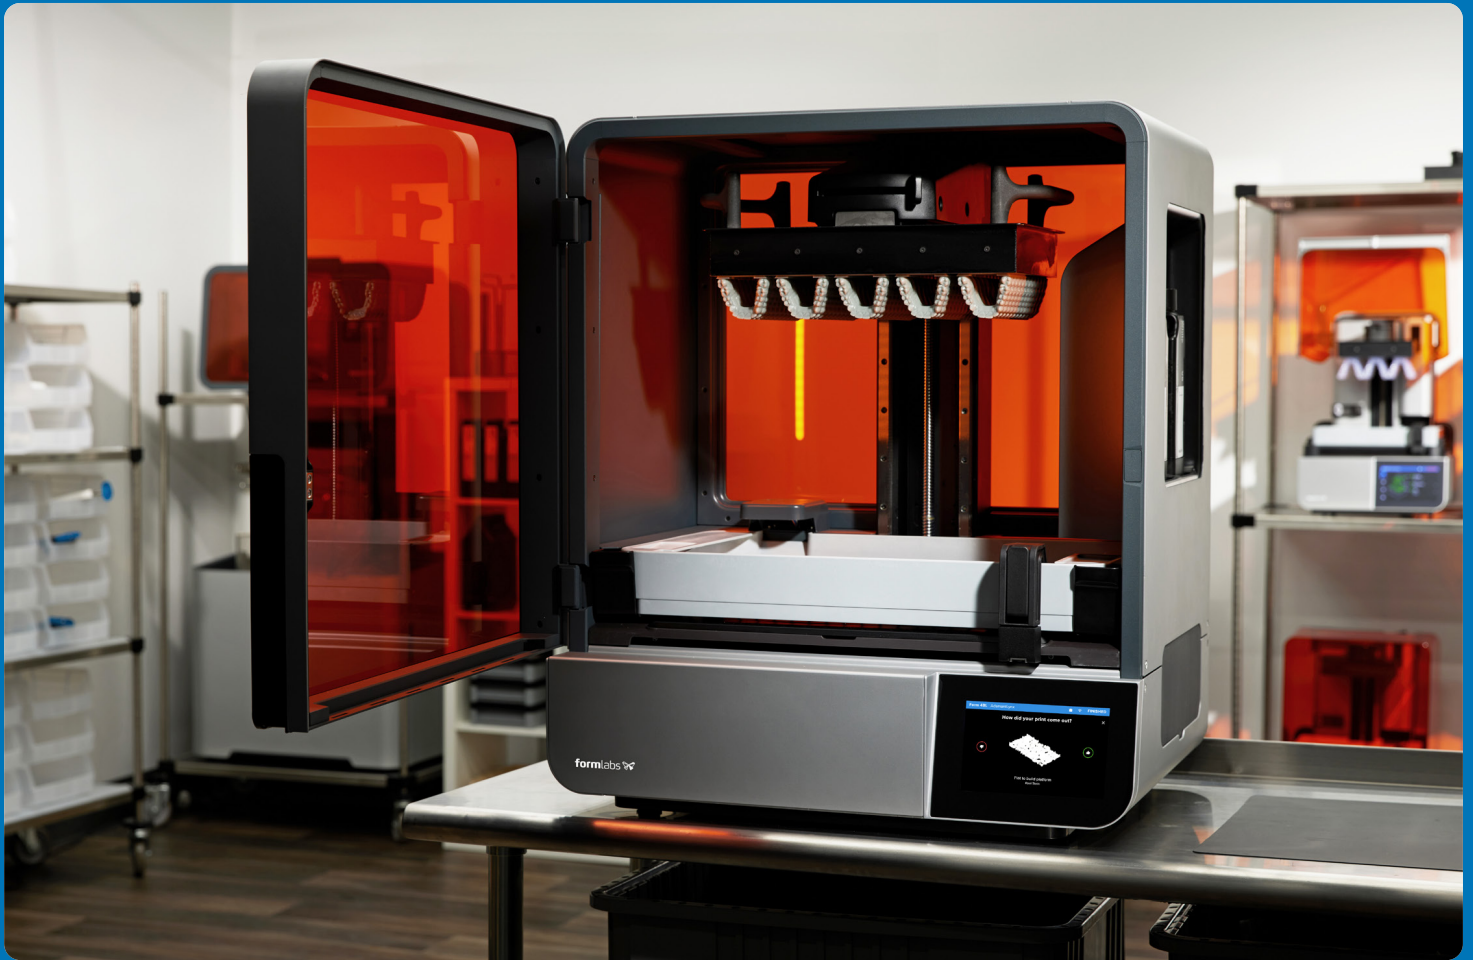

IOS for normal cases

4,0 mm 20 %
6,1 mm 30,5 % Body layer (cervical) 3Y-TZP

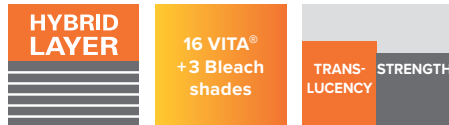

CLOSE TO YOU

DDcubeY[®]HL

Hybridlayer – 5Y/3Y multicolored zirconia

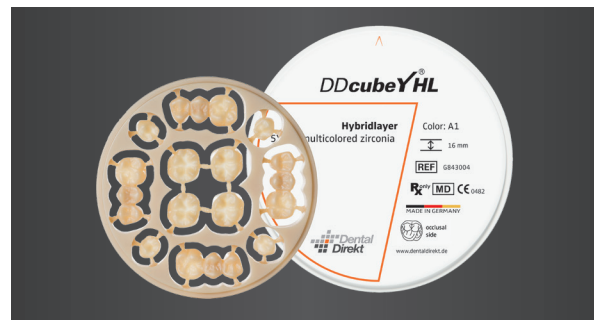

Super High Translucent (5Y-TZP)
High Translucent (3Y-TZP)

DD cubeY[®] HL is suitable for the fabrication of highly aesthetic restorations with large spans. The different translucencies and flexural strengths from cervical to incisal ensure stability and aesthetics. The hybrid layer from the »yellow-warm« aesthetic line has a precise layering and fits perfectly into the row of teeth.

Benefits

- Highest precision due to distortion-free material
- High process reliability during processing – no indication restrictions due to >800 MPa in the incisal area
- Fast and cost-effective for natural-looking fully anatomical (monolithic) restorations

Technical data

Type	5Y-TZP + 3Y-TZP
Indication ISO 6872	Type II, class 5 – all dental constructions, bridges with max. 2 connected pontics
Color	Precolored acc. to VITA [®]
Aesthetics	incisal: Super High Translucent cervical: High Translucent

***Merchandise Rebate Product Exclusions:** CAD/CAM equipment, teeth, furniture, Katana Zirconia, and certain other products identified by Zahn from time to time as being excluded from rebates.

Participating in a promotional discount program is only permissible in accordance with discount program rules. By participation in such program, you agree that, to your knowledge, your practice complies with the program requirements. Note: This promotion offers a bundled discount. You must fully and accurately report any discounts, rebates, or other price reductions ("Discounts") to Medicare, Medicaid, Tricare, and any other federal or state program upon request by any such program. You must claim the benefit of these discounts in the fiscal year in which the discounts are earned, or the following year. Accordingly, you should retain any documentation, including your invoice or purchase order, of Discounts. It is your responsibility to review any agreements or other documents applicable to these prices to determine if they are subject to any Discounts. Minimum terms and conditions: Rates and programs are subject to change at any time, without notice. All transactions are subject to the satisfaction of underwriting guidelines, credit approval, documentation requirements, and not all applicants will qualify. This program may be subject to and exclusive of, applicable taxes. Henry Schein Financial Services retains the right to modify or terminate the promotions at any time without further notice. This financing program is available through Henry Schein Financial Services only. Certain other restrictions and additional terms and conditions may apply. Purchases must be invoiced and funded by December 31, 2025. Offer expires June 28, 2025. ©2025 Henry Schein, inc. TrueDent and other
Low Impact
Printed Dentures

Philip Kim

*Owner, Paramount
Dental Studio*

"The AutoFinish helps free up my technicians times to learn new skills and to grow in their roles and become better technicians — which helps me with employee retention.

The AutoFinish is not an optional piece of equipment but will become a mandatory piece of equipment for your finishing workflow."

Jay Collins

*Owner, Cornerstone
Dental Lab*

"Having the ability to turn out 400 zirconia crowns per hour has been unbelievable for us.

We've had doctors send us more work because we're turning out cases faster. Our workflow is way more efficient thanks to the AutoFinish."

Polymerizer for Flasks M9

685-0204-HYP

Rust-free frame. This machine can hold up to 9 flasks for polymerizing. Synoptic and intuitive programming control, with delayed start time in hours and minutes and with warning buzzer at programs end.

High heating power (1750 W). Easy draining through a lateral tap. Power supply: 115 V.

Stainless steel

\$2,319.99

Washing and Polymerizing Machine E2

685-0201-HYP

This machine can hold up to 6 flasks for dewaxing and up to 12 flasks for polymerizing. Once the polymerization is over, just lay the flasks on the upper tray, and warm water shower will dewax them. Different programs are available at your choice. Power supply: 220 V.

Stainless steel

\$4,764.99

Hydraulic Press

685-0197-HYP

Made of high resistant aluminum. Robust design (up to 15 ton force). It admits up to three flasks with clamps. Astonishing smooth-spinning spindle. Very well balanced workbench.

\$931.99

Gel Mixer Aneto

685-0269-HYP

Attractive and reliable gel mixer featuring state-of-the-art technology: tank heating by lateral and bottom resistors, which prevents gel burning from high temperatures; oxide-free casing, made of stainless steel and polyurethane; high capacity (Approx.

1.85 Gal tank); state-of-the-art electronic controls allowing multiple adjustments... A complete machine designed to work without problems for many years. Power supply: 115 V.

Stainless steel

\$3,654.99

Polishing Box with Suction

685-0218-HYP

Rust-free frame, made of stainless Steel. Supplied with powerful Lathe 160 W. Two speed and with a great flow suction motor. Minimum noise. Simple access to the suction filters system, for an easy maintaining and cleaning. The unit is equipped with LED lighting and with two removable rubber hoods. With manual safety reset switch to prevent unexpected start-ups. Power supply: 115 V.

Stainless steel

\$4,449.99

Box with Suction for Polishing

685-0205-HYP

Robust and rust-free frame. It features and exhaustor and filter unit, lighting system, polycarbonate protective screens and a Schuko-type power connection with manual safety reset to prevent unexpected start-ups. Supplied with two rubber screens. Power supply: 115 V.

2,469.99

Automatic Polymerizing Pot Geisser

685-0253-HYP

Polymerizer pot with high capacity tank (up to 1,58 gallon). Electronic controls to regulate temperature and time. Useful for the vast majority of materials (polymerizable by pressure and temperature) present in the market. The quality of the result is simply perfect. Power supply 115V.

Specifications

Dimension 13.77 x 15.75 x 14.17 in
Weight 11lb
Max. pressure 2 bar
Max. Temperature 212°F
Volume tank 1.6 gal.
Heating power 600 W

\$1,499.99

Steam Cleaning Box Altamira

685-0198-HYP

The indispensable complement for any steam cleaning device. Made of polypropylene, very strong and rust-free material. Wide chamber, LED lighting, powerful ventilation system, integrated water tank at the bottom.

With an easy and practical tank-draining system. Power supply: 115 V.

GC Initial® IQ Lustre Pastes ONE

3-Dimensional Ceramic Pastes

The most versatile and paintable ceramic

GC Initial® IQ Lustre Pastes ONE are feldspar-based ceramic materials, available in a ready-to-use consistency. Composed of fine ceramic particles, the 3-dimensional paint pastes add color deepness and lifelike translucency to your monolithic restorations. They can be applied in a thicker layer, guaranteeing unsurpassed vitality and a very natural glaze. GC Initial® IQ Lustre Pastes ONE feature improved fluorescence for external staining as well as internal characterisation of substructures.
