

## STAT KIT® 750 and STAT KIT® 750-AI EMERGENCY MEDICAL KIT

Choose the model configured for your practice:

STAT KIT 750

Office-based practice

STAT KIT 750-AI

Office-based practice

Adds pediatric epinephrine auto-injector

# STAT KIT® 750 highlights

STAT KIT 750 Emergency Medical Kits provide a comprehensive set of medications and devices in a mobile, durable and secure hard-case. They are organized for quick access into sections and medication trays, all clearly labeled and categorized into key areas of care. They allow the caregiver to provide BLS and ACLS.

- Complete set of medications
- Designed to help meet accreditation standards
- Durable, secure and mobile hard-case, 17.5" x 22" x 10.5", 44 pounds
- Always up to date

## Always up to date

HealthFirst's Auto-Replenishment Service takes the guesswork out of staying up to date. The service uses smart automation to track the expiration dates of medications and devices and automatically replenishes them before expiration. Your practice benefits by extending the shelf life of medications, lowering costs, saving time, and gaining peace of mind.

## OnTraq

OnTraq is an online account management tool that dynamically shows the status of your emergency medical kit and medications. It allows users to view each medication, expiration dates, lot numbers, national drug backorder status, and upcoming medication replenishment shipments. Rely on OnTraq's smart automation for dashboards, reports and task management.
